

*a la curve*  
**J A S P E R   D E S K**

**PRODUCT SPECIFICATIONS**

**Veneers**

Veneer on all exposed surfaces is #1 select American Black Walnut, Cherry or Maple. Outside surface veneers are book-matched to provide proper grain consistency. Drawer fronts are vertical grain and matched in selected sets to insure proper veneer balance. Inside faces of end panels and back panels are random matched.

**Wood Veneer Tops**

Tops are 1 3/16" thick, 3-ply construction with shaped wood edge on all four sides.

**End Panels**

End panels are 1" thick, 3-ply construction with veneer band on vertical edges and a black PVC band along the top edge. Wing end panels feature a solid lumber band on the bottom edge of the panel to prevent glide tear out.

**Modesty Panels**

Modesty panels are 3/4" thick, 3-ply construction with book-matched veneer on approach side.

**Drawers**

Drawer sides and backs are solid lumber beech 7/16" thick. Drawer fronts are 3-ply construction, 3/4" thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners of the drawer box. Fronts are securely mounted onto the drawer box. Drawer pulls must be specified on pedestals. There are five styles of pulls with three finish options available.

**Hardware**

Drawer suspensions - all drawer suspensions are "A" grade steel ball bearing suspensions. Suspensions are zinc plated and feature cushioned in and out stops. All file drawers have 100% opening.

**Locking**

Pedestals are pedestal locking keyed randomly. Three and four drawer lateral files are central locking with anti-tip mechanisms installed. Locking on some storage units may be optional.

**Electrical Accessories**

Wire Management - Black rectangular grommets are standard on return, bridge, and corner tops. Additional grommets are optional in a variety of locations. Refer to page 141 for information on optional grommet placement.

**Chassis Construction**

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked for maximum strength.

**Filing**

File drawers use an easily adjustable filing system which can be positioned to accommodate letter or legal filing.

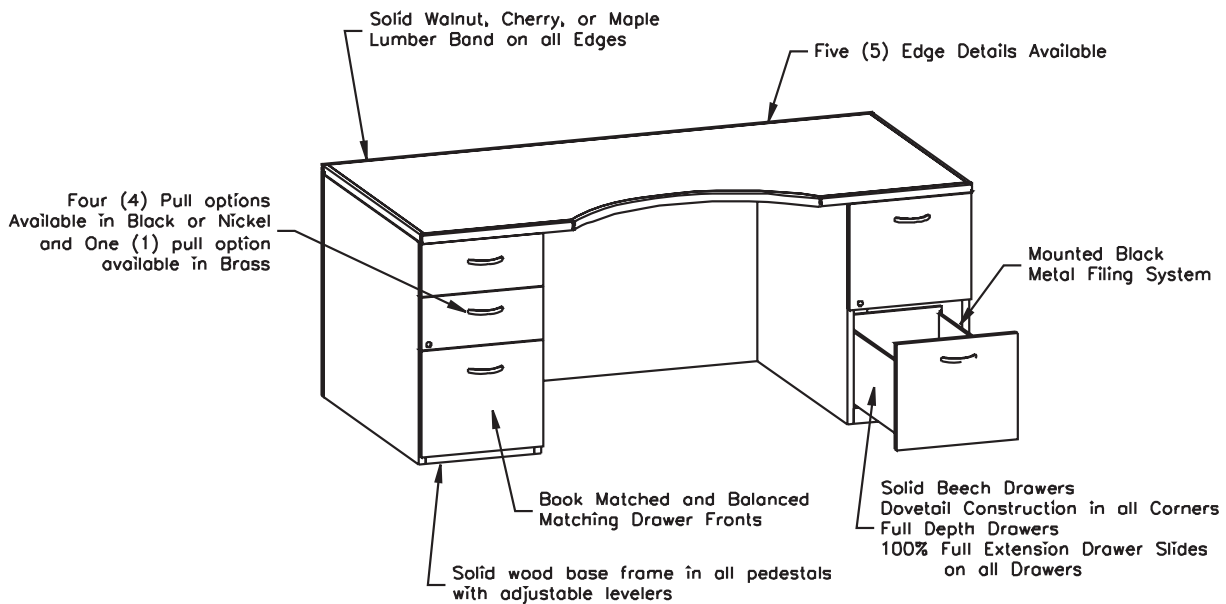

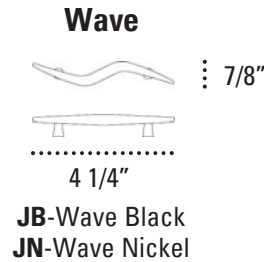

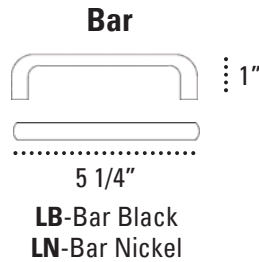

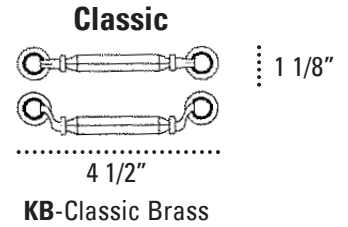

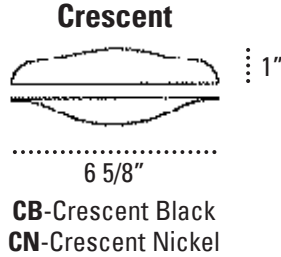

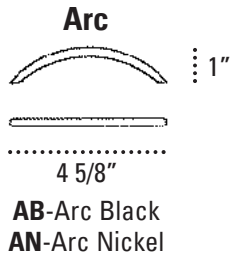

**Finish**

All surfaces are catalyzed lacquer full fill finish to insure maximum durability, chemical resistance, color retention, and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, washcoat, washcoat sand, filler spray and wipe, sealer spray, sealer sand, varnish spray, varnish sand and varnish spray.

Drawer interiors and exteriors are finished with sealer, sealer sand, and varnished.

*a la curve*  
**J A S P E R   D E S K**  
**PULL AND FINISH OPTIONS**

Pulls are required on all pedestals and are available in Matte Nickel or Matte Black. The Classic pull is offered in Classic Brass only, and the Crescent pull is ADA approved. No upcharge on standard pulls.

a la curve is offered in Cherry, Walnut and Maple wood species. Custom finishes are welcome.
