

JASPER DESK

Square Bases Available in 3 Sizes
18", 24", and 30" SQ. 28 1/4" Tall

Panel Bases Available in 3 Sizes
18", 24", and 30" x 7" Wide
28 1/4" Tall

Available in Walnut, Cherry, or Maple
All surfaces are catalyzed varnish finish
Metal Available in Anodized Aluminum or Black Aluminum

Veneers

Veneer on all exposed surfaces are select plain sliced American Black Walnut, Cherry or Maple. Outside surface veneers are bookmatched to provide proper grain consistency. Drawer fronts are vertical grain and matched in selected sets to insure proper veneer balance. Inside faces of end panels and back panels are random matched.

Conference Table Tops

Tops are 1 3/16" thick, 3-ply construction with solid walnut, cherry or maple rims on all four sides with a reverse bevel profile.

End Panels

End panels are 1" thick, 3-ply construction with veneer band on vertical edges and along the top edge. Wing end panels feature a solid lumber band on the bottom edge of the panel to prevent glide tear out.

Drawers

Drawer sides and backs are solid lumber beech 7/16" thick. Drawer fronts are 3-ply construction, 3/4" thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners of the drawer box. Fronts are securely mounted onto the drawer box. Drawer pulls are standard on pedestals. There are two finish options available: Black and Anodized Aluminum.

Hardware

Drawer suspensions - all drawer suspensions are "A" grade steel ball bearing suspensions. Suspensions are zinc plated and feature cushioned in and out stops. All file drawers have 100% opening.

Locking

Pedestals are pedestal locking keyed randomly. Locking on some units may be optional.

Electrical Accessories

Power Accessories - Jasper Desk offers power, communication, and wire management products to address today's office needs. Please refer to pages 346-347 for information on these products.

Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked for maximum strength.

Filing

File drawers use an easily adjustable filing system which can be positioned to accommodate letter or legal filing.

Finish

All surfaces are catalyzed varnish full fill finish to insure maximum durability, chemical resistance, color retention, and clarity. All exterior surfaces are finished in the following multi-step sequence: sap stain, NGR stain, washcoat, washcoat sand, filler spray and wipe, sealer spray, sealer sand, varnish spray, varnish sand and varnish spray.

Drawer interiors and exteriors are finished with sealer, sealer sand, and varnished.

Communique
J A S P E R D E S K

Communique conference room furniture features either a black or anodized aluminum metal inlay. This product enhancement is standard on all media walls, upper side cabinets, buffet credenzas, media cabinets and tables.

However, for table tops only, with out metal inlay, there is an option for a price deduction (NI after model number) if this feature is not required. The metal inlay is 1/8" wide and has a minimal (3/32") rise above the top surface. Panel base (PB) and square base (SB) have a metal edging on all corners, and as with the top, must be specified in either black (LX) or Aluminum (AL).
