## ENERGY MANAGEMENT POLICY

BIFMA e3 Credit 6.1

Jasper Desk Company, Inc acknowledges the benefits of actively managing energy conservation and performance. The Company has had a long standing commitment to responsible energy management and will strive minimize the environmental impacts its operation has on the environment.

### Policy objectives

The policy of Jasper Desk Company is to monitor energy use in existing facilities and buildings and implement efficiencies where feasible.

The company will:

- conserve resources through energy efficient technology and monitoring building performance;
- protect the environment by monitoring the amount of pollution caused by energy consumption and greenhouse gas emissions; and remain at or below federal and state regulatory levels at all time; and
- continually reduce dependence on fossil fuels through the use of ambient and renewable energy generated by in house scrap.

The company will achieve this by:

- gaining control over energy consumption by reviewing usage and installing energy efficient equipment/structural improvements where feasible;
- integrate the consideration of energy concerns and impacts into all of our decision making and activities,
- promote energy conservation awareness among our employees and encourage them to work in an energy efficient responsible manner;
- engage in a proactive preventative maintenance program that will ensure equipment runs at optimum efficiency; and by
- implementing procedures and providing training at all levels of the company.
