PRODUCT SPECIFICATIONS

Optional Center Drawer

5 Pull options

Pedestal locking

All surfaces are catalyzed varnish finish

PRODUCT SPECIFICATIONS

Veneer

Veneer on all exposed surfaces is plain sliced American Black Walnut, Cherry or Maple. Outside surface veneers are book-matched to provide proper grain consistency. Drawer fronts are vertical grain and matched in selected sets to insure proper veneer balance. Inside faces of end panels and back panels are random matched.

Wood Veneer Tops

Tops are 1 1/4" thick, 3-ply construction with solid Walnut, Cherry or Maple rims on all four sides, shaped with either a knife or zulu edge detail.

End Panels

End panels are 3-ply construction, 3/4" thick with solid Walnut, Cherry or Maple rims on front and back edge. End panels feature adjustable levelers set in solid hardwood to prevent glide tear-out.

Modesty Panels

Panels are 3/4" thick, 3-ply construction with book-matched approach side veneer face. Desk modesty panels feature a 3 1/4" to 6" center recess.

Drawers

Drawer sides and backs are solid beech lumber 7/16" thick. Drawer fronts are 3-ply construction, 13/16" thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners. All desk drawers are grooved for 7/16" hardwood drawer partitions. Center drawer pen trays are of solid hardwood.

Hardware

Drawer Suspensions - File drawers utilize an "A" grade heavy duty 100% full extension black metal ball bearing slide for smooth operation. Box drawer and center drawer heavy duty black metal ball bearing slides have 100% full extension. All suspension systems feature positive and cushioned in/out stops.

Locks - Desk, Credenzas and Returns use pedestal locking. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. Lateral files are keyed as standard and feature drawer interlocks.

Drawer/Door Pulls - Arc style and Crescent style drawer pulls are standard in either black or nickel finish.

Wire Management - Black wire access grommets are standard on all returns, bridge and corner worksurfaces located in back center of top. Black wire access grommets are standard on all credenzas, hutches, highback organizers and electronic data support tables located in back panel.

Chassis Construction

Construction technique is mortise and tenon, groove and tenon, heavily glue blocked for maximum strength.

Filing

All file drawers utilize a black powder coated metal filing rod system to accommodate legal, letter, and small EDP filing requirements. Desks with 36" deep pedestals accommodate double letter cross filing.

Finish

All surfaces are catalyzed varnish finish to insure maximum durability, chemical resistance, color retention, and clarity. All exterior surfaces are finished in the following multi-step sequence: Sap stain, NGR stain, washcoat, washcoat sand, filler spray and wipe, sealer spray, sealer sand, varnish spray, varnish sand and varnish spray.

Drawer interiors and exteriors are finished with sealer, sealer sand, and varnished.
