PRODUCT SPECIFICATIONS

Veneer

Veneer on all exposed surfaces is A grade select American Black Walnut, Maple or Cherry. Outside surface veneers are bookmatched to provide proper grain consistency. Drawer fronts are highly figured burl walnut or plain sliced cherry veneers and matched in selected sets to insure proper veneer balance.

Wood Veneer Tops

Tops are 1" thick, 3-ply construction with solid walnut, cherry or maple lumber rims shaped with a traditional-styled edge detail. Rims on all four sides are solid walnut or cherry with tongue and groove construction precisely mitered on all four corners. Veneer tops are standard. Sketch face, leather-inlay, and high pressure laminate tops are optional.

Modesty Panels and End Panels

All panels are 3-ply construction. Center modesty panels and end panels are $\frac{3}{4}$ " thick. Modesty panel veneers are bookmatched in a 3-piece set. Decorative panel molding is crafted from solid walnut, cherry or maple has mitered corners, and is hand fitted and glued into a matching groove in the panel.

Drawers

Drawer fronts are 5-ply construction with burl walnut or plain sliced maple or cherry veneer faces in matched sets. Drawer sides and backs are solid beech lumber $\frac{7}{16}$ " thick. Drawer bottoms are of 3-ply hardwood construction. Drawers are assembled with dovetail construction in all four corners. All desk drawers are grooved for drawer partitions. Center drawer pen trays are of solid hardwood.

Doors

Doors are 5-ply construction with burl walnut or plain sliced cherry or maple veneer faces in matched sets.

Shelves

Shelves are 3-ply construction with a $\frac{1}{4}$ " walnut, cherry, or maple rim on the front edge. Faces are random matched walnut or cherry veneer. Hutch shelves are walnut-faced or cherry-faced on both sides.

Bases

Bases are solid hardwood walnut, cherry or maple mitered at all four corners. Units may be specified with Conventional or Georgian Scroll base. Adjustable leveling glides are provided to insure proper leveling of unit to floor conditions.

Security/Dust Bottoms

All units have $\frac{1}{8}$ " thick hardboard security/dust bottoms.

Hardware

Drawer Suspensions - File, box and center drawers utilize "A" grade heavy duty black metal slides for smooth operation. All pedestal drawers have 100% full extension slides. All suspension systems feature positive and cushioned in/out stops.

Locks - Desk center drawer locks all drawers. Credenzas use pedestal locking. Individual pieces are shipped random keyed. Units may be keyed alike upon special request. Lateral files are keyed as standard and feature drawer interlocks.

Drawer Pulls - Traditional-styled, bail type drawer pulls in antique brushed brass finish are standard. Leather-wrapped drawer pulls are optional.

Wire Management - Black wire access grommets are standard on all returns and bridge work surfaces located in back center of top. Black wire access grommets are standard on all credenzas, hutches, highback organizers and electronic data support tables located in back panel.

Chassis Construction

Construction technique is post and panel with mortise and tenon and groove and tenon joints, heavily glue blocked with hardwood cleats for maximum strength and durability.

Filing

All file drawers utilize a black metal filing rod system to accommodate legal and letter filing requirements. Desks with 36" deep pedestals accommodate double letter cross filing.

Finish

All surfaces are catalyzed varnish finish to insure maximum durability, chemical resistance, color retention, and clarity. All exterior surfaces are finished in the following multi-step sequence: Sap stain, NGR stain, washcoat, washcoat sand, filler spray and wipe, sealer spray, sealer sand, varnish spray, varnish sand, varnish spray and polish.

Drawer interiors and exteriors are finished with stain, sealer, sealer sand, and varnished.
