QUALITY POLICY - Jasper Desk's commitment to quality

SCS-EC10.2-2007-Section 6.2.2(ii)

JASPER DESK has been building quality wood office furniture since 1876. This longevity means that we have had the distinct pleasure of creating nearly every type of wood office furniture imaginable. Every piece of wood office furniture is made from the finest hardwoods and veneers. All of our furniture, whether contemporary or traditional, executive or reception, standard or custom, follow the same quality standards that have made Jasper Desk a leader amongst American furniture manufacturers.

Jasper Desk is one of the oldest and most respected American made furniture companies in existence. We offer a broad selection of wood desks, credenzas, bookcases, file cabinets, seating, and other wood office furniture built to exacting specifications.

We promote the use of American Made or manufactured materials in all of our wood furniture. We believe in providing American jobs to our local community and the nation. At Jasper Desk, quality and customer satisfaction are key and our work is backed by a 10-year warranty.

Jasper Desk is a vertically integrated manufacturer. We mill our own woods, lay up the veneer, and control the quality of the product from forest to finish.

In our ever-changing world, there are few things that remain constant. Our commitment to you is the same as it's been for the past 135 years, to give our customers the best design, functionality, quality and value in American Made office furniture. Jasper Desk Company, all you need to know about quality wood office furniture.

Jasper Desk is committed to producing top quality wood office furniture. As it was at the inception of this company, as today, the durability, strength, and our legacy built over years of service are the hallmarks of our quality furniture.
